其他问题

1. Appstore 审核

- 天猫iPhone/iPad、手淘iPhone已上架
- Quora: Well, Apple did change their terms in iOS 8.2 to allow apps to download executable code after the app is reviewed and installed on people's phones as long as it is run with JavaScriptCore, and does not materially change the purpose of the app.

2. iOS 6 JSCore

· iOS6降级至Web

3. Android Version

- 第一个RN App 已发布, 9.15已开源
- · 暂时降级至Web

内存优化:列表缓存释放

JS主动调用UC缓存释放接口

```
@Uverride
public boolean execute(String action, String params, WVCallBackContext callback) {

if ("onLowMemory".equals(action)) {
   if (WVUCWebView.getUCSDKSupport()) {
      try {
          UCCore.onLowMemory();
          callback.success();
          return true;
      } catch (Exception e) {
          callback.error("Only UCSDKSupport !");
          TaoLog.d("WVUCBase", "UCCore :: onLowMemory error : " + e.getMessage());
      }
   }
}
return false;
```

```
// windvanegc start
var opengc = tmParam.opengc;
  (env.taobaoApp ፟ opengc) {
   var timmer;
    function scrollEndGC (){
        // alert('gc')
       windvane.call("WVUCBase","onLowMemory",{},
            function(result) {
                // alert(JSON.stringify(result))

        );
   xscroll.on('scrollend', function(){
        clearTimeout(timmer);
        timmer = setTimeout(scrollEndGC,1000);
